

ZIMMERMAN TRUCK LINES, INC. PROFIT SHARING PLAN

ERISA 404 Retirement Plan and Investment Information

02/15/2015

Contract/Plan ID Number 4-35819

This document uses these defined words and phrases:

Plan means **ZIMMERMAN TRUCK LINES, INC. PROFIT SHARING PLAN.**

Plan Fiduciary means the individual(s) holding authority over the operation and administration of the Plan and its retirement funds. The Plan Sponsor is typically the Plan Fiduciary. Contact the Plan Administrator for further details.

Plan Sponsor means **ZIMMERMAN TRUCK LINES, INC.**

You means the Plan participant or beneficiary.

Plan Administrator is a Plan Fiduciary that has authority over operation and administration of the Plan. You should contact the Plan Administrator if you have any questions about the investment options under the Plan or if you would like paper copies of additional investment information that is available online at principal.com.

The Plan Administrator is:

ZIMMERMAN TRUCK LINES, INC.
190 E INDUSTRIAL DR
MIFFLINTOWN, PA 17059-8253
717-436-2141

Information about ERISA Section 404(c)

The Employee Retirement Income Security Act (ERISA) provides rules about the investment of retirement funds. The Plan Sponsor chose to qualify the Plan as an ERISA 404(c) plan and intends to comply with ERISA Section 404(c) requirements by providing information for you to make informed investment decisions and by letting you:

- Direct the investment of individual retirement accounts
- Choose from at least three diverse investment options
- Change investment choices at least quarterly

This means the Plan Fiduciary should not be liable for any investment losses that result from a participant's investment control.

How does this affect you?

The Plan Fiduciary makes certain investment options available under the Plan. You decide which of those options works best for you according to your age and circumstances. This means that you are responsible for directing the investment in the account the Plan holds for your benefit (your account).

Directing or Transferring Between Investment Options

You can direct or transfer retirement funds between the different investment options at least quarterly. The Plan may allow for more frequent transfers.

You are not allowed to direct contributions or investment transfers into MidCap Separate Account.

You are not allowed to direct contributions or investment transfers into LargeCap Growth Separate Account.

You are not allowed to direct contributions or investment transfers into Diversified International Separate Account.

You are not allowed to direct contributions or investment transfers into Guaranteed Interest Account 5 year.

You are not allowed to direct contributions or investment transfers into Principal Financial Group, Inc. Stock Separate Account.

To transfer retirement funds, you can call the automated phone system of the Principal Financial Group® at 1-800-547-7754 or log in to your account at principal.com.

A description of the exercise of voting, tender and similar rights for an investment alternative and any restrictions on these rights is located in the relevant plan document or trustee powers section of the trust agreement. Contact the Plan Administrator to obtain the plan document or the trust agreement, if applicable.

Fees and Expenses

An annual Plan administrative expense of 0.72 percent applies to each participant's account balance. One twelfth of this annual amount will be charged on a monthly basis. The dollar amount of the expense can be found by logging in to the secure website at principal.com and on participant statements. Plan administrative expenses typically include items such as recordkeeping, participant website access, participant statements, Plan compliance services and financial professional services.**

From time to time, Plan expenses may be incurred in the course of normal Plan operation for Plan services such as legal, auditing, third-party administration, consulting, investment advice to the Plan, etc. If allowed by the Plan document, the Plan Fiduciary may direct that these expenses be paid by the Plan. The Plan Fiduciary determines how these expenses are allocated among participants at the time the expenses are paid. These expenses are typically allocated based on participant account balance but may be allocated by dividing the total expense to be deducted by the total number of participants in the Plan. If such expenses are charged to participant accounts, the dollar amount of such expenses will be disclosed on the secure principal.com website and on participant statements (if applicable) for the quarter in which they are paid.

The following participant-level services have additional fees. These participant transaction fees will be charged to your account balance for the services you elect to use. Participant transaction fees for the Plan include:

- Distribution fee: \$40.00
- Distribution In-kind fee: \$40.00
- Distribution Installment fee for new installment elections: \$10.00 per quarter
- Loan Maintenance fee for new loans: \$12.00 per quarter
- Loan Setup fee: \$50.00
- Personal Retirement Account fee for new Personal Retirement Accounts: \$6.25 per quarter **
- Qualified Domestic Relations Order processing fee: \$350.00 for each Domestic Relations Order processed. The fee is divided equally between the participant and the alternate payee involved unless specified differently within the Domestic Relations Order or the Plan's Administrative Procedures.

Please see the Investment Option Summary for fees and expenses that may be charged against your account based on investment-level transactions.

** The Personal Retirement Account fee is in lieu of the annual plan administrative expense noted above and applies to terminated participants with an account balance.

The Plan Administrator can provide the following additional information in paper form, without charge and upon request:

- Copies of prospectuses (or any short-form or summary prospectuses) for the investment options
- Copies of any financial statements or reports, such as statements of additional information and shareholder reports, and of any other similar materials relating to the Plan's designated investment options
- A statement of the value of a share or unit of each designated investment option and the date of the valuation
- A list of the assets comprising the portfolio of each investment option which constitute Plan assets and the value of each asset (or the proportion of the investment which it comprises)
- The following information about each investment option (including fixed-return investment options) available under the Plan: issuer name, investment objective, principal strategies and risks, turnover rate, performance, and fee and expense information
- To the extent a group annuity contract under the Plan permits you to select an annuity guaranteed by an insurance company, a statement that the guarantee provided by the insurance company is subject to its long-term financial strength and claims-paying ability

To help you make informed investment choices and for more information about the investment options available to you, including investment objectives, performance and fees, please review the enclosed materials or visit principal.com.

This document provides important information to help you compare the investment options available to you under the retirement plan.

Investment results shown represent historical performance and do not guarantee future results. Investment returns and principal values fluctuate with changes in interest rates and other market conditions so the value, when redeemed, may be worth more or less than original costs. Current performance may be lower or higher than the performance data shown. For additional information on the investment options, including most recent month-end performance, log in to the Principal Financial Group® website at principal.com or call our automated phone system at 1-800-547-7754.

Additional information available online includes, if applicable, the name of the investment option's issuer; the investment option's objectives or goals; the investment option's principal strategies, including a general description of the types of assets held by the investment option; the portfolio turnover rate; and the investment option's performance data and fee and expense information.

In situations where the net and gross total investment expense figures are different, the mutual fund or the underlying fund in which a Separate Account invests has waived/capped a portion of its management fees through the date displayed in the waiver expiration date or contractual cap expiration date column. Differences may also be shown due to the fund family choosing to pay certain expenses that would normally be payable by the fund. Returns displayed are based on total investment expense net.

Fees and expenses are only one of several factors that participants and beneficiaries should consider when making investment decisions. Some or all of the Plan administrative expenses are paid from the total investment expense of one or more of the Plan's investment options. The cumulative effect of fees and expenses can substantially reduce the growth of a participant's or beneficiary's retirement account. Participants and beneficiaries can visit the Employee Benefit Security Administration's website for an example demonstrating the long-term effect of fees and expenses.

For a glossary of terms to assist you in understanding the designated investment options, log in to your account at principal.com.

Asset Class: Short-Term Fixed Income																	
This asset class is generally composed of short-term, fixed-income investment options that are largely liquid and are designed to not lose much value. These investment options may include stable value, money market, short-term bond, and guaranteed interest accounts. They are considered to be among the least risky forms of investment options. However, they typically have a lower rate of return than equities or longer-term fixed income investment options over long periods of time. Depending on the objectives of the investment options, they may experience price fluctuations and may lose value.

Description: The investment seeks to achieve its investment objective by investing primarily in securities that are AAA rated or issued by the U.S. government, its agencies or instrumentalities. The investment may invest in mortgage-backed securities representing an interest in a pool of mortgage loans. These securities are rated AAA by Standard & Poor's Corporation or Aaa by Moody's Investor Services, Inc. or, if unrated, determined by the sub-advisor to be of equivalent quality. Management seeks undervalued securities that represent good long-term investment opportunities.

Description: The investment invests the majority of assets in commercial real estate holdings. It focuses on properties that return both lease income and appreciation of the buildings' marketable value. The property holdings usually contain real estate from the multi-family, office, warehouse/manufacturing, and retail sectors. This investment option is subject to investment and liquidity risk and other risks inherent in real estate such as those associated with general and local economic conditions. You may not be able to immediately withdraw funds contributed to this Separate Account. A contractual limitation in the group annuity contract that provides access to this Separate Account may be implemented, which will allow management of this Separate Account, and satisfy withdrawal requests over time and fairly amongst all those who request a withdrawal.

Description: The investment seeks a total return consisting of long-term growth of capital and current income. The fund operates as a "target date fund." It invests in underlying Principal Funds, Inc. ("PFI") domestic and foreign equity, real asset and alternative investments, and fixed-income funds according to an asset allocation strategy designed for investors having a retirement investment goal close to the year in the fund's name. The fund invests in PFI Institutional Class shares of underlying funds. Within 10 to 15 years after its target year, the fund's underlying fund allocation is expected to match that of the Principal LifeTime Strategic Income Fund.

Asset Class: Short-Term Fixed Income		
Investment Option Name: Guaranteed Interest Account 5 year		
Description:		
This investment option provides a guaranteed interest rate for 5 years. Guarantees are supported by the General Account of Principal Life Insurance Company (Principal Life), but you do not participate in the investment experience or performance of the General Account. Contributions and transfers allocated to this option will be credited interest at a guaranteed rate that Principal Life declares for a set period of time (the Guarantee Period). Guaranteed interest rates for new allocations are subject to change daily, and each amount allocated to the guaranteed interest account will earn interest based on this guaranteed interest rate in effect for the date that the amount is allocated to this guaranteed interest account. Your actual interest credited after the first deposit year is a composite of the guaranteed rates based on the actual dates of deposit, withdrawals and transfers. A surrender charge may apply to transfers or withdrawals from an unmatured guaranteed interest account. The reference rate used to determine if a charge applies is equal to the applicable U.S. Treasury rate plus 0.50%. A charge applies when the reference rate is higher than the rate being credited to the unmatured funds being transferred or withdrawn. The amount of the surrender charge is calculated as follows: 1) the applicable U.S. Treasury Rate plus 0.50% minus the rate being credited, multiplied by 2) the number of years and fractional parts of a year left in the guarantee period, multiplied by 3) the amount being surrendered. A surrender charge may not apply to withdrawals due to retirement, termination of employment, disability or death. For more information, call the automated phone system at 1-800-547-7754 or see the applicable fact sheet on principal.com for a more complete description of this investment option and the crediting rate. Crediting Rates shown are the rates that would have been received if \$1.00 was allocated on the date shown.		
Crediting Rate	Crediting Period	Term
5-Year Full Rate: 0.95	Guarantee Period: 12/31/2014	5 years
5-Year Full Rate: 0.85	Guarantee Period: 09/30/2014	5 years

Investors should carefully consider a mutual fund's investment objectives, risks, charges, and expenses prior to investing. A prospectus, or summary prospectus if available, containing this and other information can be obtained by contacting a financial professional, visiting principal.com, or calling 1-800-547-7754. Read the prospectus carefully before investing.

Before directing retirement funds to a separate account, investors should carefully consider the investment objectives, risks, charges, and expenses of the separate account as well as their individual risk tolerance, time horizon and goals. For additional information, contact us at 1-800-547-7754.

The value of the investment options will fluctuate so that when redeemed, shares or units may be worth more or less than the original cost.

An investment's past performance is not necessarily an indication of how the investment will perform in the future.

Since inception benchmark returns are displayed on the Investment Option Summary for investments that are less than 10 years old. The benchmark reflecting the Since Inception return is the Morningstar Category index. For some Sub-Advised investment options, two benchmarks will be displayed on the Investment Option Summary and the secondary index reflecting the Since Inception Return is the Morningstar Category index.

- ⁴ Separate Accounts are available through a group annuity contract with Principal Life Insurance Company. Insurance products and plan administrative services, if applicable, are provided by Principal Life Insurance Company, a member of the Principal Financial Group, Des Moines, IA 50392. See the fact sheet for the full name of the Separate Account. Certain investment options may not be available in all states or U.S. commonwealths. Principal Life Insurance Company reserves the right to defer payments or transfers from Principal Life Separate Accounts as described in the group annuity contracts providing access to the Separate Accounts or as required by applicable law. Such deferment will be based on factors that may include situations such as: unstable or disorderly financial markets; investment conditions which do not allow for orderly investment transactions; or investment, liquidity, and other risks inherent in real estate (such as those associated with general and local economic conditions). If you elect to allocate funds to a Separate Account, you may not be able to immediately withdraw them.

Returns shown for periods of less than one year are not annualized. All returns displayed here are after net Total Investment Expense of the investment option.

Insurance products and plan administrative services are provided by Principal Life Insurance Company, a member of the Principal Financial Group® (The Principal®), Des Moines, IA 50392.

For a Separate Account investment option, Total Investment Expense net equals the sum of these expenses: (a) the amount of money, expressed as a percentage, deducted for the costs of managing a separate account where applicable, fees for plan administrative services and agent compensation, plus (b) if the separate account invests in an underlying mutual fund, the total fund operating expenses of the underlying mutual fund, plus (c) if an underlying mutual fund invests in other mutual funds, the weighted-average management fee of those other mutual funds, as listed in the most recent prospectus. The actual gross Total Investment Expense may change if an underlying mutual fund's allocation of assets to other mutual funds changes.

Several investment companies have decided to impose redemption fees and/or transfer restrictions on certain plan and/or participant transactions. One or more of the investment options in your employer's retirement plan may be impacted. For more information, visit The Principal Web site at principal.com.

These results are for the investment options available through your Plan Sponsor's retirement plan, and may be different from the results for other retirement plans. Past performance is not a guarantee of future results. Principal values and investment returns will fluctuate so that values upon redemption may be worth more or less than original costs. Total returns illustrated are net of investment expenses and management fees.

Principal Life is an investment manager as defined in ERISA with regard to its Separate Accounts.

Since inception returns are only shown for funds/accounts in existence for less than 10 years.

- ⁷ Small-cap and mid-cap investment options are subject to more fluctuation in value and may have additional risks than other investment options with stocks of larger, more stable companies.
- ² Each index based investment option is invested in the stocks or bonds of the index it tracks. Performance of indexes reflects the unmanaged results for the market segment the selected stocks or bonds represent. There is no assurance an index based investment option will match the performance of the index tracked.
- ³ This Separate Account invests solely in the Institutional class shares of the Principal Funds.
